Compact and motorized brewing unit technology

# inissia...

## which one do you want to play with

Inissia is full of hidden surprises. Although it can be easily stored anywhere and is the smallest of the entire range of Nespresso machines, it has the same technology as the others, allowing it to bring out the full flavour and exceptional quality of the Nespresso Grands Crus.

**149<sup>99</sup>**  
Nespresso Inissia  
espresso maker

Inissia offers all the Nespresso expertise in a smart little machine.

Compact, lightweight, equipped with an ergonomic handle, Inissia fits perfectly into any interior design.

Inissia was smartly designed to make your life easier. It thinks of everything from the two cup sizes settings to the automatic shut-off after 9 minutes.

## PLAYFUL COLOURS. UNIQUE PLEASURE.

Barista quality espresso and more at the touch of a button thanks to the smallest and most affordable Nespresso machine yet!

# Pixie

## simply smart

Pixie is designed as the SMART model in the Nespresso line, condensing into the latest Nespresso machine launch, a wide range of innovative, advanced features in a surprisingly small machine.

## The Coffee Club

Nespresso Club members all have one thing in common - a passion for truly exceptional coffee

The Nespresso Club brings together connoisseurs around a gourmet coffee lifestyle. Visit the Nespresso Club at [nespresso.com](http://nespresso.com)

### Latte Macchiato

- Froth the milk using the steam nozzle of your Nespresso machine or the Aeroccino milk frother or push the one button on the Lattissima+ machine
- Place the frothed milk into a large recipe glass
- Pour the selected Grand Cru (40ml, 1.5oz) directly over the frothed milk
- Add sugar to taste.

### Cappuccino

- Pour your chosen Grand Cru (40 ml/1.5 oz) into a cappuccino cup
- Froth the milk using the steam nozzle of your Nespresso machine or the Aeroccino milk frother
- Fill the cup with the prepared frothed milk
- Add sugar to taste and sprinkle with cocoa
- Or prepare in one touch using the Lattissima+ machine.

### The secret of the capsule

The Nespresso capsule contains the world's finest ground Grand Cru coffees, but it doesn't end there.

Along with their sleek contours and range of colours, the capsules are totally protected from air to ensure that the ground coffee remains fresh over time. Discover the secrets of this sophisticated little gem..

# The capsule

## The capsule system

The capsule is hermetically sealed to prevent oxidation of the freshly ground coffee. To keep the coffee fresh right up to the moment of tasting, Nespresso has designed its capsules from aluminium, a material that protects the coffee from air, light and humidity. Each capsule also has a unique colour so you can quickly identify the Grand Cru you wish to serve.

# Lattissima+

## unique coffee maker

The Lattissima is the most unique coffee maker since it has a half-liter reservoir tank that can be filled with milk and this can be used as an alternative to water to create a cup of cappuccino or a latte coffee drink. It goes one step beyond the call of duty by featuring a frothing device as well to create the best latte or cappuccino for you.
